Shubham - demo coverage assumptions

COMPANION TO ORIGINAL KOTAK WORDING - NOT AN INSURER-ISSUED SCHEDULE

Fictional selection	Assumed value
Policy wording reference	Kotak Group Health Assure - KOTHLGP22168V012122
Demo policy reference	DEMO-KOTAK-1000000
Sum insured	Rs. 10,00,000 family floater
Continuous cover assumed from	12 March 2024, without breaks
Current renewal assumed	12 March 2026 to 11 March 2027
Members	Shubham Sharma 32, Mohan Sharma 62, Kamala Sharma 58
Selected room option	Benefit 13: normal-room cap with proportionate deduction
Normal room limit	Rs. 2,500 per day - fictional selected limit
Optional co-pay and deductible	Neither selected in this fictional scenario

Pages 6 and 29 allow a mother as an insured relationship. Kamala is assumed enrolled for this fictional story; an issued certificate is required in real use. The original wording does not supply these personal selections or numeric limits. They are invented demonstration inputs. The original PDF is unchanged. Benefit 14 is the alternative without proportionate deduction, not the option chosen for this story.

Kotak wording page 17 contains important exceptions: medicines/pharmacy, medical consumables, implants and diagnostic costs are reimbursed based on actual amounts subject to policy terms. Differential-billing conditions and ICU exceptions also matter. Actual eligibility requires the issued schedule and claim facts.

Demo figures: previous paid 73,420; current paid 1,65,000; total recorded 2,38,420; estimated base cover remaining 7,61,580. This is a demonstration ledger, not an insurer-confirmed balance.
