Simulated claim decision

CARENEST FICTIONAL CLAIMS DESK - NOT ISSUED BY KOTAK

Claim: DEMO-2026-1002 | Policy: DEMO-KOTAK-1000000 | Decision date: 25 September 2026

Patient: Kamala Sharma | Hospital bill: CN/IP/2026/1002

Decision summary	Amount
Claimed - net hospital bill	Rs. 1,85,000.00
Approved and paid (fictional)	Rs. 1,65,000.00
Total deductions	Rs. 20,000.00

The itemized reasons appear on page 2. This simulated decision deliberately contains a questionable implant deduction and an unexplained amount for investigation. It is not evidence of an actual insurer decision or practice.

Itemized deduction record

Claim DEMO-2026-1002 - illustrative recorded reasons, not verified applicability

Recorded deduction	Amount	Recorded reason
Room and associated charges	Rs. 9,100.00	Selected normal-room limit exceeded. Applied benefit 13.
Proportionate reduction on implant	Rs. 6,100.00	Applied the same room ratio to net implant charges.
Other deductions	Rs. 4,800.00	-

Recorded room calculation: 7 x (2,750 - 2,500) = 1,750. Associated charge base: 20,700 + 10,150 + 25,000 + 10,000 + 15,000 = 80,850. Recorded proportional reduction: 80,850 x (1 - 2,500/2,750) = 7,350. Combined = 9,100.

Recorded implant calculation: (71,925 - hospital discount 4,825) x (1 - 2,500/2,750) = 6,100. This is the simulated decision's calculation; the app must examine the policy exception, rather than assume it is valid.

No itemization or policy clause is recorded for the remaining 4,800. Ask the fictional claims desk for the breakdown.

Reconciliation: 1,85,000 - 9,100 - 6,100 - 4,800 = 1,65,000. Related wording does not confirm a deduction is justified.
